(has seen in 1 comments) San Andreas Multiplayer server hits 2,000 players GTA PC servers 'San Andreas Multiplayer Server' has recently been upgraded to version 1.2! The latest version is supported by many new features including DirectX11, DLC support and an alternate client, which is required for high end graphics cards. The new client doesn't currently work with GTA:SA 0.3.32.32.33.34.35.36.38.39 or with previous SAMP versions, but 0.3.40 will hopefully solve that as it is more focused on graphics. can click through and get all your information. For the best experience, add the wiki to your reading list and come back to it whenever you have questions. Once you download and install the wiki, the games aren't required anymore. There will be icons on the GTA SA Server page to download it. Notice the "Forum" page is missing the link to the wiki. If the "Forum" page was working, that would have provided the link to the wiki for the SA server. But, don't take my word on that, make sure and check out the wiki yourself. If you do
